
Physical Science (PHYSCI)

PHYSCI 001 **Survey of the Physical Sciences** **(4)**

Class Hours: 54 Lecture | 54 Laboratory

Transfers to: UC/CSU

PHYSICI 001 is a general study of physical principles that operate throughout the universe, including a brief integrated study of force, motion energy, electricity, light, structure of the atom, interaction of matter, and study of the earth, planets, and stars. No credit will be allowed for physical science if the student is concurrently enrolled in, or has taken, a college chemistry, physics, geology or astronomy course.

PHYSICI 002 **Chemistry and Physics for Educators** **(4)**

Class Hours: 54 Lecture | 54 Laboratory

Prerequisite(S); MATH 061 (Required, Previous or concurrent).:

Transfers to: CSU

C-ID: CHEM 140

PHYSICI 002 is designed to prepare students to teach chemistry and physics at the K - 12 grade levels with emphasis on meeting California Public School Standards. This course is part of the natural science series for students planning to transfer to a four-year liberal studies program. Topics include physical and chemical properties of matter, motion, energy, electricity, light, atomic structure and bonding, and chemical reactions.
