
Agriculture Science Technology

Agriculture Science Technology Local Certificate

The Agriculture Science Technology Degree prepares students to work with global positioning satellite (GPS) systems, geographic information system (GIS) software, automatic tractor guidance systems, variable rate chemical input applicators, surveying equipment, and related computer software. Students will learn in hands-on, real-world applications. Completing the certificate qualifies the student to enter the professional job market in the public sector as well as the agriculture industry.

Program student learning outcomes:

1. Students will communicate technical information and work related concepts effectively through professional written and oral communication.
2. Students will describe basic agronomic concepts of soil, tillage, fertilizers, pest control, and crop production.
3. Students will solve problems using critical thinking and troubleshooting skills individually or in a team environment.
4. Students will explore new technologies and apply them to current production issues.

Recommended Course Sequence: **Falcon Pathway: Agriculture Science Technology Local Cert.**

<i>Course #</i>	<i>Title</i>	<i>Units</i>
Required Core Courses (15 Units)		
AGBUS 015.	Computer Application to Agriculture	3
CRPSCI 001.	Introduction to Plant Science	3
CRPSCI 006.	Introduction to Precision Agriculture	3
CRPSCI 007.	Advanced Precision Agriculture	3
CRPSCI 019.	California Water	3
Total		15
