AGBUS 024 **Agricultural Accounting** (3)

Class Hours: 54 Lecture

Transfers to: UC/CSU

C-ID: AG-AB 128

Agricultural Accounting

AGBUS 024 will explore the principles of agricultural accounting systems and the types of records you will use. You'll learn how to compute and apply measures of earnings and the cost of production to enhance agribusiness efficiency. The course also covers farm income tax, Social Security, and employee payroll records. You'll apply these concepts through hands-on projects, developing computer-based solutions for agricultural businesses. This class covers all the accounting principles and practices you'll typically use in a farm, ranch, or similar business.

AGBUS 040 **Intro Agricultural Economics** (3)

Class Hours: 54 Lecture

Transfers to: UC/CSU

C-ID: AG-AB 124

Introductory Agricultural Economics

AGBUS 040 students will explore agricultural economics, including the role of agriculture and farming in the economic system. You'll learn about basic economic concepts, challenges facing agriculture, regenerative vs conventional agriculture business practices, pricing and marketing issues, production factors, and the impact of state and federal farm programs on farmers' economic positions.
