
Psychiatric Technician (PT)

PT 101 **Psychiatric Tech Training Prog** **(0.5)**
Class Hours: 9 Lecture *P/NP*

Prerequisite(s): HS-005, BIO-032, PSYC-C1000, and PHARM-003

Psychiatric Technician Training Program Orientation

PT 101 aims to equip students for success in the Coalinga College Psychiatric Technician Program. Throughout the course, students will be provided with a comprehensive program handbook, orientation to policies and procedures, access to calendars and syllabi, guidance on travel expectations, and the necessary materials to thrive in their studies.

PT 050 **Anatomy for Nurses** **(2)**

Class Hours: 36 Lecture

Advisory(s): HS 005 and ENG 051A

Anatomy for Nurses

PT 050 will present an overview of basic human anatomy and physiology necessary to provide psychiatric technician students with the foundational understanding of the structure and function of healthy human body systems and changes associated with aging.

PT 051 **Fundamentals of Nursing** **(5)**

Class Hours: 90 Lecture

Prerequisite(s): VNPT 090, HS 080, or PT 050

Prerequisite(s): HS 088 or HS 005

Corequisite(s): PT 051L

Fundamentals of Nursing

PT 051 will present basic nursing care skills and the role and responsibilities of the professional nurse/psychiatric technician. Students will learn entry-level patient care skills including the application of critical thinking and the nursing process.

PT 051L **Fundamentals of Nursing Clinic** **(3)**

Class Hours: 162 Laboratory

Corequisite(s): PT 051

Fundamentals of Nursing Clinical

PT 051L will present basic nursing care skills and the role and responsibilities of the professional nurse/psychiatric technician. Students will attend course in both skills laboratory and community patient care environments including skilled nursing facilities. Students will be required to travel to community sites.

PT 052 **Medical Surgical Nursing** **(5)**

Class Hours: 90 Lecture

Corequisite(s): PT 052L

Medical Surgical Nursing

PT 052 is a foundational course covering intermediate and advanced nursing care skills for professional nurses and psychiatric technicians. Using a body-systems approach, students will study medical/surgical nursing skills with a strong theoretical foundation for patient care. PT 052 is paired with PT 052L, ensuring a comprehensive learning experience that merges theoretical knowledge with practical clinical training.

PT 052L **Medical Surgical Nurs Clinical** **(3)**

Class Hours: 162 Laboratory

Corequisite(s): PT 052

Medical Surgical Nursing Clinical

PT 052L will allow the application of intermediate and advanced nursing care skills in developing the role and responsibilities of the professional nurse/psychiatric technician. Students will learn medical/surgical nursing skills using a body-systems approach, and provide hands-on patient care at community based clinical sites.

PT 060 Lifespan for Nurses (2)

Class Hours: 36 Lecture

Advisory(s): ENG 051A

Lifespan for Nurses

PT 060 will present an overview of basic human development from gestation through adult necessary to provide psychiatric technician students with the foundational understanding of growth and development during the human life span.

PT 061 Intro to Developmental Disab. (5)

Class Hours: 90 Lecture

Prerequisite(s): PT 052 and PT 060

Corequisite(s): PT 061L

Introduction to Developmental Disabilities

PT 061 examines the care of individuals with intellectual and developmental disabilities within the framework of residential care and treatment facilities. Students will learn strategies and concepts that build upon basic nursing skills in the management and care of this special population.

PT 061L Intro to Developmental Disabil (3)

Class Hours: 162 Laboratory

Corequisite(s): PT 061

Introduction to Developmental Disabilities Clinical

PT 061L will provide students the opportunity to apply foundational principals in the care of clients with developmental and intellectual disabilities. Students will be required to travel to community sites and follow policy and procedures according to industry standards.

PT 062 Developmental Disabilities (5)

Class Hours: 90 Lecture

Prerequisite(s): PT 061

Corequisite(s): PT 062L

Developmental Disabilities

PT 062 examines the care of individuals with intellectual and developmental disabilities originating from genetic and gestational factors, providing students with a deep understanding of these conditions. Students will also learn about the history and application of applied behavior analysis and behavior modification strategies. This course has a corequisite, PT 062L, where students will apply their learning in a clinical setting, ensuring a comprehensive and practical learning experience.

PT 062L Developmntl Disablties Cincial (3)

Class Hours: 162 Laboratory

Corequisite(s): PT 062

Developmental Disabilities Cincial

PT 062L will allow the application of nursing care skills in developing the role and responsibilities of the professional nurse/psychiatric technician. Students will develop nursing skills and behavior modification practices within the context of developmental and intellectual disabilities and provide hands-on patient care at community based clinical sites.

PT 070 Psychology for Nurses (2)

Class Hours: 36 Lecture

Psychology for Nurses

PT 070 will present an overview of human psychology and the many approaches psychologists take in understanding human behavior.

PT 071 Intro to Mental Disorders (5)

Class Hours: 90 Lecture

Prerequisite(s): PT 062 and PT 070

Corequisite(s): PT 071L

Introduction to Mental Disorders

PT 071 will introduce psychological and mental health concepts as they relate to the professional Psychiatric Technician. The causes, prevention, and treatment of mental, emotional and behavioral disorders will be examined by providing practice in interpersonal skills, self-understanding, problem solving communication, and the use of rehabilitation methods in providing patient care.

PT 071L Intro to Mental Disorders Clin (3)

Class Hours: 162 Laboratory

Corequisite(s): PT 071

Introduction to Mental Disorders Clinical

PT 071L will allow the introductory applications of hands-on patient care in the area of psychological and mental health to individuals at the forensic clinical sites related to the Psychiatric Technician profession. The causes, prevention and treatment of mental, emotional and behavioral disorders will be examined by providing practice in interpersonal skills, self-understanding, problem solving, communication, and the use of rehabilitation methods in providing patient care. Students will be expected to travel to clinical sites.

PT 072 Mental Disorders (5)

Class Hours: 90 Lecture

Prerequisite(s): PT 071

Corequisite(s): PT 072L

Mental Disorders

PT 072 will be an in-depth study of psychological and mental health concepts as they relate to the professional psychiatric technician. You will examine the causes, prevention, and treatment of mental, emotional, and behavioral disorders. The course will provide practice in interpersonal skills, self-understanding, problem-solving, communication, and the use of rehabilitation methods in providing patient care. PT 072L is a corequisite to this course in which you will apply these skills in clinical settings.

PT 072L Mental Disorders Clinical (3)

Class Hours: 162 Laboratory

Corequisite(s): PT 072

Mental Disorders Clinical

PT 072L will allow the application of intermediate and advanced hands-on patient care of the psychological and mental health of individuals at the forensic clinical sites within the role and scope of psychiatric technician. The causes, prevention, and treatment of mental, emotional and behavioral disorders will be examined by providing practice in interpersonal skills, self-understanding, problem solving, communication, and the use of rehabilitation methods in providing patient care. Students will be expected to travel to distance clinical sites.

PT 081 Pharmacology 1 (1)

Class Hours: 18 Lecture

Advisory(s): HS 005

Pharmacology 1

PT 081 is an overview of basic pharmacological principles, terminology, legal, and safety aspects of medication administration as it pertains to the role of the psychiatric technician, vocational nurse, or registered nurse. This course will help you to understand drug classifications, effects, and client teaching principles with an emphasis on anti-infective, cardiovascular, respiratory, renal, and diabetes medications.
